

INTUITIVE

Da Vinci

Force Bipolar

With DualGrip technology

Added control.* Nonstop progress.**

Get a different level of grasping control throughout your case* with Force Bipolar and DualGrip technology.

Close surgeon collaboration aimed at increasing efficiency in da Vinci cases led to a design that features two distinct grip modes.

Stay focused on the surgical field and shift grip strength when you need to, instead of asking your assistant to switch in another grasper.

With the Force Bipolar in your toolkit, you can streamline setup and minimize workflow disruptions by reducing instrument exchanges.

* Compared to other da Vinci 8 mm instruments. Data on file. Available for the da Vinci X and / or da Vinci Xi surgical systems

** Nonstop progress refers to reduced instrument exchanges.

Take grasping control to a different level.*

Increase the strength of your grip seamlessly with DualGrip technology.

Simply switch the mode from “Default” to “Strong” using your foot pedal to get a stronger hold of the suture or tissue you need to handle, instead of interrupting the procedure to bring in a new instrument.

* Compared to other da Vinci 8 mm instruments. Data on file.

Be efficient.

Force Bipolar combines the abilities of two grasping instruments, which enables you to increase efficiencies¹ and your hospital to potentially save on instrument costs.²

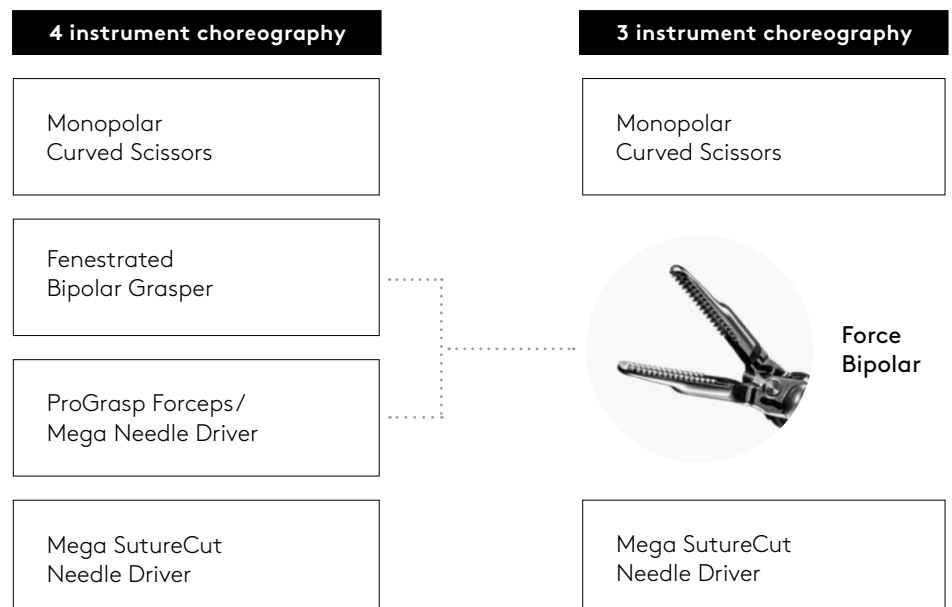

Now you can:

Simplify instrument selection with a grasper that covers multiple needs.

Minimize disruptions to your workflow by reducing instrument exchanges.

Potentially save time during your cases, delivering possible cost savings to your hospital.²

Potential savings per case from reduction in number of instruments.²

1. Time savings from decrease in number of instrument (enabled by multifunctionality and DualGrip Technology) exchanges and having less instrument to clean and sterilize.

2. Data on file

Ordering Information

Part Number

Force Bipolar

1 unit (12 uses)

da Vinci X and da Vinci Xi Surgical Systems

You can take advantage of Force Bipolar for:

- grasping
- retraction
- dissection
- bipolar coagulation of tissue

Product Information

Da Vinci X and Xi Surgical Systems

The Intuitive Surgical Endoscopic Instrument Control Systems (da Vinci X and da Vinci Xi Surgical Systems) are intended to assist in the accurate control of Intuitive Surgical Endoscopic Instruments during urologic surgical procedures, general laparoscopic surgical procedures, gynecologic laparoscopic surgical procedures, general thoracoscopic surgical procedures, and trans-oral otolaryngology surgical procedures restricted to benign tumors and malignant tumors classified as T1 and T2, and for benign base of tongue resection procedures. The systems are indicated for adult and pediatric use (except for trans-oral otolaryngology surgical procedures). They are intended to be used by trained physicians in an operating room environment.

The da Vinci X and da Vinci Xi Surgical Systems are class IIb medical devices CE marked (CE2460) under the European Medical Devices Directive (93/42/EEC), manufactured by Intuitive Surgical, Inc. Refer to Instructions For Use before use.

Endowrist Instruments

EndoWrist Instruments, including blunt and sharp endoscopic dissectors, scissors, scalpels, forceps / pick-ups, needle holders, endoscopic

retractors, electrocautery and accessories are intended for endoscopic manipulation of tissue, including grasping, cutting, blunt and sharp dissection, approximation, ligation, electrocautery, suturing, and delivery and placement of microwave and cryogenic ablation probes and accessories.

EndoWrist Instruments are class IIa and class IIb medical device CE marked (CE 2460) under the European Medical Devices Directive (93/42/EEC) manufactured by Intuitive Surgical, Inc. Refer to Instructions For Use before use.

Force Bipolar

The EndoWrist Force Bipolar is intended to be used with compatible systems for endoscopic manipulation of tissue, including dissection, grasping, retraction, and bipolar coagulation of tissue.

The EndoWrist Force Bipolar is a class IIb medical device CE marked (CE 2460) under the European Medical Devices Directive (93/42/EEC) manufactured by Intuitive Surgical, Inc. Refer to Instructions For Use before use.
