

Force Bipolar with DualGrip technology

Added control.¹ Nonstop progress.²

Get a different level of grasping control throughout your case¹ with Force Bipolar and DualGrip technology.

Close surgeon collaboration aimed at increasing efficiency in da Vinci cases led to a design that features two distinct grip modes. Stay focused on the surgical field and shift grip strength when you need to, instead of asking your assistant to switch in another grasper.

With the Force Bipolar in your toolkit, you can streamline setup and minimize workflow disruptions by reducing instrument exchanges.

01

Two grip strengths in one instrument.

02

Bipolar energy available in both grip modes.

03

70° of fully wristed articulation.

1. Compared to other da Vinci 8 mm instruments.
Data on file. Available for the da Vinci X and /
or da Vinci Xi Surgical Systems.

2. Nonstop progress refers to reduced instrument exchanges.

Product Information

Force Bipolar

The EndoWrist Force Bipolar is intended to be used with compatible systems for endoscopic manipulation of tissue, including dissection, grasping, retraction, and bipolar coagulation of tissue.

The EndoWrist Force Bipolar is a class IIb medical device CE marked (CE 2460) under the European Medical Devices Directive (93/42/EEC) manufactured by Intuitive Surgical, Inc. Refer to Instructions For Use before use.

Da Vinci X and Xi Surgical Systems

The Intuitive Surgical Endoscopic Instrument Control Systems (da Vinci X and da Vinci Xi Surgical Systems) are intended to assist in the accurate control of Intuitive Surgical Endoscopic Instruments during urologic surgical procedures, general laparoscopic surgical procedures, gynecologic laparoscopic surgical procedures, general thoracoscopic surgical procedures, and trans-oral otolaryngology surgical procedures restricted to benign tumors and malignant tumors classified as T1 and T2, and for benign base of tongue resection procedures. The systems are indicated for adult and pediatric use (except for trans-oral otolaryngology surgical procedures). They are intended to be used by trained physicians in an operating room environment.

The da Vinci X and da Vinci Xi Surgical Systems are class IIb medical devices CE marked (CE2460) under the European Medical Devices Directive (93/42/EEC), manufactured by Intuitive Surgical, Inc. Refer to Instructions For Use before use.

Endowrist Instruments

EndoWrist Instruments, including blunt and sharp endoscopic dissectors, scissors, scalpels, forceps / pick-ups, needle holders, endoscopic retractors, electrocautery and accessories are intended for endoscopic manipulation of tissue,

including grasping, cutting, blunt and sharp dissection, approximation, ligation, electrocautery, suturing, and delivery and placement of microwave and cryogenic ablation probes and accessories.

EndoWrist Instruments are class IIa and class IIb medical device CE marked (CE 2460) under the European Medical Devices Directive (93/42/EEC) manufactured by Intuitive Surgical, Inc. Refer to Instructions For Use before use.
