Price policy

Pricing subject to change without notice, applicable taxes, and freight charges may apply.

Return goods policy

All returns are authorized through Intuitive Customer Service. Please visit the Intuitive Customer Portal at my.intuitive.com or call toll free at 800-876-1310, option 3 to obtain a Return Material Authorization number (RMA#). All items must be accompanied with a valid RMA# and are requested to be received within 14 days of issuance or the RMA could be subject to cancellation. Intuitive will prepay for the return of the defective instruments.

Defective returns

Upon identification of a defective instrument, please report to Intuitive Customer Service or through the Intuitive Customer Portal within five days.

Prior to returning to Intuitive, items must be cleaned and decontaminated in accordance with current local environmental safety laws and standards.

Excess returns

Items are required to be in the original packaging with no markings, seals intact, and to have been purchased within the last 12 months.

Package excess returned inventory in a separate shipping container to prevent damage to original product packaging.

Credit policy

Intuitive will issue credit against original purchase order after full inspection is complete.

Credit for defective returns

Intuitive will issue credit on products based on failure analysis performed and individual warranty terms.

For re-usable instruments, credit will be issued for the remaining lives, plus one additional life to compensate for usage at the time the issue was identified.

For disposable instruments, credit will be issued for the unit price.

Evidence of negligence, misuse, and mishandling will not qualify for credit.

Credit for excess-inventory returns

15% restocking fee may apply to bulk excess returns based on non-conforming return requests.

Original packaging must be unmarked, undamaged, and seals intact to qualify for credit.

For disposable items, the original shipping packaging must remain intact as originally shipped: unmarked, undamaged, and unopened and credit will be issued for the purchase price.

Products that were shipped less than 12 months prior to return request.

If the product is within expiration date.

Intuitive must retain all returned product.

Warranty

Warranties are applied for manufacturing defects:

Endoscope, Camera, Simulator, and System upgrades – 1 year warranty

Accessories – 90 day warranty

Instruments – see above for credit terms

Data use

Customer agrees that Intuitive and its affiliates within the Intuitive group of companies (collectively, "Intuitive") may collect data relating to the use of Intuitive products ("Data"). In some instances, data may be communicated via data gathering or transmission technology to Intuitive. In other instances, Intuitive may request customer and customer agrees to provide Data to Intuitive. Such Data may be used for a variety of purposes, including, but not limited to (1) providing support and preventative maintenance of Intuitive products, (2) improving Intuitive products or services, (3) ensuring compliance with applicable laws and regulations, and (4) providing a general resource for Intuitive's research and business development. Intuitive does not intend to collect protected health information (PHI) as defined by the Health Insurance Portability and Accountability Act of 1996 (HIPAA) or analogous foreign patient privacy laws or regulations, as may be amended from time to time. In the event any Data communicated to Intuitive identifies an entity or individual, Intuitive will not share such Data with any third parties without the entity's or individual's consent, unless required by law or regulatory authorities.

Software license and restrictions

Software embedded within the simulator is provided under license and is not sold to customer. Subject to the terms and conditions of the SimNow agreement, Intuitive grants to customer a non-exclusive, non-transferable, fully paid, restricted use license to use the software solely as incorporated in the simulator in machine-executable object code form and solely in connection with the operation of the simulator as described in the documentation. Customer must not use, copy, modify or transfer the software or any copy thereof, in whole or in part, except as expressly

provided in the SimNow agreement. In addition, customer must not reverse engineer, decompile, disassemble, attempt to derive the source code for or otherwise manipulate the software, except that manipulation of the software is permitted if, and then only to the extent that, the foregoing prohibition on manipulation is required to be modified by applicable law. In that case, customer must first request from Intuitive the information to be sought from the software, and Intuitive may, in its discretion, provide information to customer under good faith restrictions and impose reasonable conditions on use of the software. The structure and organization of the software are valuable trade secrets of Intuitive and customer will protect the software as Intuitive's proprietary information. Intuitive reserves all rights to the software not expressly granted to customer.

Networking requirements

Purchased equipment may require a network connection in order to achieve full functionality. Customer acknowledges that when the simulator is in use, customer is responsible for maintaining an active network connection to the Intuitive simulator infrastructure as specified in the simulator's network requirements, for the purpose of supporting all subscriptions services such as, latest simulation updates, OS patches, anti-virus updates, data backup, and user account management capabilities. Customer is responsible for the security of the simulator and the security of the internal network to which the simulator is configured. Intuitive reserves the right to change, add or remove functionalities or features at any time.

Information security

Customer is responsible for maintaining the confidentiality of its username(s), password(s), account(s), as well as all activities that occur under that account(s) and both the physical and cybersecurity of the simulator.
