

SimNow® by da Vinci®

Stay connected.
Sharpen skills.

A new all-inclusive service for your robotic-assisted learning program

Get access to:

1. A standardized simulation experience across all da Vinci surgical systems.
2. A networking system which automatically updates simulation software, and enables remote management of users' simulation performance.
3. An ever-growing library of skills exercises and virtual reality surgical procedures.
4. Comprehensive maintenance and repairs for your simulator.

Key Categories

Skills

Simulation exercises optimized to engage surgeons from novice to advanced experience levels.

Hone your skills by driving da Vinci instruments in a virtual environment.

Access pre-set curricula, or produce customizable curricula, for training and credentialing purposes.

Procedures

Access to all current and future clinical procedure modules.

Progress from guided to freehand VR procedures.

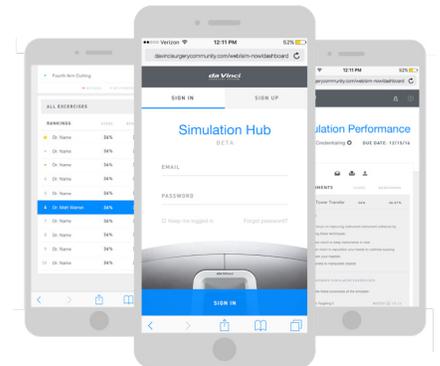

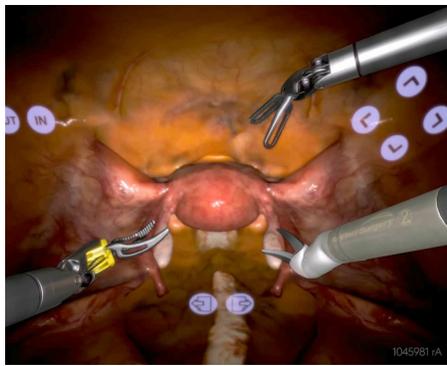

Use results from the simulated procedures to enhance surgical benchmarking prior to the operating room.

Link

Easily track your performance through an online dashboard delivering real-time metrics.

Manage all your SimNow users' progress from any PC or smart device.

Remotely push personalized simulation content to specific users and groups.

IMPORTANT SAFETY INFORMATION

For Important Safety Information, indications for use, risks, full cautions and warnings, please also refer to www.davincisurgery.com/safety and www.intuitivesurgical.com/safety.

Individual surgical results may vary.

It is the responsibility of the owner of the da Vinci Surgical System to properly train and supervise its personnel to ensure that the instruments and accessories are properly cleaned, disinfected and sterilized as required by the User's Manual. The da Vinci products should not be used in a clinical setting unless the institution has verified that these products are properly processed in accordance with the da Vinci System User's Manual.

The da Vinci® Skills Simulator is intended to augment, not replace, existing training programs for the da Vinci® Surgical Systems.
